Tie-On Bonnets, Compound Pads, Foam Waffle Pads & Mitts

Polishing Bonnets

**Terry Elastic Bonnets
Two-Sided Terry Foam
Bonnets**

Foam Waffle Pads

Compound Pads

Paint and Wash Mitts

Tie-On Bonnets, Compound Pads, Foam Waffle Pads & Mitts

Features and Benefits

Tie-On Polishing Bonnets

- Available in three different grades - 100% lambs wool, wool blend & synthetic.
- Equipped with a tie to secure the bonnet firmly to the backing pad
- Sizes to fit 3" to 12" backing pads
- Securely ties onto backing pads with drawstrings.

Terry, and Terry/Foam Bonnets

- Two sizes are available in the terry, and two-sided terry/foam bonnets
- Terry/foam bonnets are fitted with a tie to secure the bonnet firmly to the pad. These fit 4" to 8" backing pads.
- Terry Bonnets have an elastic edge that hold the bonnet firmly to the pad. Terry bonnets fit 7" to 11" backing pads.

Wash and Paint Mitts

- Wash mitts can be used wet to wash off stubborn grime, or dry as a duster
- Paint mitts make painting or staining bannisters, spindles, pipes, etc. easier. The glove gives control of the application allowing the coverage of all sides of the object at once.

Compound Pads

- 6" compound pads are 1/4" mandrel mounted for use on drills
- 7.5" can be used with a hook and loop backing pad or bolted on through the center mounting hole.
- High quality 100% twisted wool material ensures excellent results.

Foam Waffle Pads

- Two convenient sizes, 3.5" and 8". Two densities, Orange: Firm, Black: Polishing
- Reduce heat build up while buffing and polishing

*All available in attractive Dico packaging or bulk unpackaged.
All mitts, bonnets, compound pads and foam waffle pads are reusable
and washable with the ability to withstand multiple washings.*

Applications

Polishing bonnets are used for high gloss automotive and marine buffing. Also used for compounding and polishing of soiled surfaces.

Terry bonnets are used for applying and/or removing wax.

Wash mitts are used for auto and marine use to clean off stubborn dirt.

Paint Mitts are used for painting or staining hard-to-paint areas like spindles, banisters, etc.

Compound Pads are used for final polish and wax. These pads give good cutting action and leave the work surface with a high gloss finish.

Foam Waffle Pads

- Orange waffle pad is for applying wax, preliminary and light buffing.
- Black waffle pad is for removing waxes, buffing and eliminating swirl marks on the work surface.
